

## **Illinois Department of Insurance**

Illinois moved to in-person exams only on January 17<sup>th</sup>. With over 80 in-person testing sites available in the state – an increase of over 1000% from pre-pandemic levels -- and many more sites available in border states and across the country, Illinois has decided to halt the use of the online OnVue exam option previously available through Pearson Vue. All licensing candidates are encouraged to go to the Pearson Vue Illinois webpage to search for a testing facility near you. We are excited to move forward in partnership with Pearson Vue by providing exponentially more in-person testing opportunities to our candidates than were available pre-pandemic and to ensure the ethics and integrity of the insurance industry by making this change. Visit Pearson Vue today to schedule your next exam: <https://www.pearsonvue.com/us/en/il/insurance.html>
